Fly Guy Presents: Weird Animals By Tedd Arnold

Before Reading: Examine the front and back covers. What kind of book do you think this is- entertaining or informational? Could it be both? What do you already know about weird, or strange and extraordinary, animal adaptations? Have you read other graphic novels in the Fly Guy series?

During Reading: Create a Scientist’s Journal of Animals and their Adaptations

<table>
<thead>
<tr>
<th>Animal Name</th>
<th>Adaptation (What makes it weird?)</th>
<th>How This Helps it Survive in its Habitat</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

After Reading: Design your own Weird Animal!

Imagine if you were able to create a new animal species! What adaptations would you want your animal to have to help it survive? Illustrate and label your weird animal to identify the adaptations you chose. Explain what the adaptation is for and how it will be used using details in your drawing. What would you name this animal, and why? Share with your adult.
